

Instructions for Authors

PATHOLOGY – RESEARCH AND PRACTICE publishes original contributions exclusively in the English language addressing the entire field of pathology. Regular sections are:

- **Original Articles;**
- **Animal and In Vitro Models in Human Diseases** – studies that include animal or cell models illustrating human disease and its treatment and pathogenesis;
- **Histotechniques** – manuscripts concerning new technical procedures;
- **Teaching Cases** – case reports of paradigmatic interest;
- **Diagnostic Seminars** – papers dealing with specific topics providing information on new trends and results in diagnostic histology and cytology;
- **Rapid Communications** – short original papers with new findings of critical importance;
- **Hypotheses** – short speculative papers which do not contain new data, but outline a new way of thinking which needs testing;
- **Reviews** – reports of new developments.

“**Letters to the Editor**” and “**Announcements**” meant for publication should be addressed as such. “Letters” may include comments addressing previously printed articles, or any topic of general pathologic interest. “Announcements” are printed without any charge.

It is at the discretion of the Executive Editors to reject submitted papers without further explanation.

Copyright. Submission of a manuscript implies that the submitted work has not been published before (except as part of a thesis or lecture note or report, or in the form of an abstract); that it is not under consideration for publication elsewhere; that its publication has been approved by all co-authors as well as by the authorities at the institute where the work has been carried out; that written permission of copyright holders is obtained by the authors for material used from other copyrighted sources; that, if and when the manuscript is accepted for publication, the authors hand over the transferable copyrights of the accepted manuscript to the publisher; and that the manuscript or parts thereof will thus not be published elsewhere in any language without the consent of the copyright holder. For more information see <http://www.elsevier.com/authorsrights>.

Submission of Manuscripts

Original contributions should be submitted online by using the Elsevier Editorial System (<http://ees.elsevier.de/prp>). The contributions will be assigned to one of the following Executive Editors. Queries regarding the submitted manuscripts should be directed to the Editor to whom the manuscript was assigned.

Albert Roessner, M.D., Department of Pathology, University of Magdeburg, Leipziger Str. 44, 39120 Magdeburg, Germany. Tel.: +49-391-671-5817, Fax: +49-391-671-5817, E-mail: albert.roessner@med.ovgu.de

Kenneth P. H. Pritzker, M.D., FRCPC, Pathology and Laboratory Medicine, Mount Sinai Hospital, 600 University Avenue, Toronto, Ontario M5G 1X5, Canada. Tel.: +1-416-586-4453, Fax: +1-416-586-8589, E-mail: kpritzker@mtsinai.on.ca

Masashi Fukayama, M.D., Department of Pathology, Graduate School of Medicine, The University of Tokyo, 7-3-1 Hongo, Bunkyo-ku, Tokyo 113-0033, Japan. Tel.: +81-3-5841-3344, 3343, Fax: +81-3-5800-8785, E-mail: mfukayama-ty@umin.net

Katsuo Sueishi, M.D., PhD., Emeritus Professor of Kyushu University, Director of Research and Education, National Hospital Organization, Fukuoka-Higashi Medical Center Chidori 1-1-1, Koga-city, Fukuoka 811-3195, Japan. Tel.: +81-92-943-2331 (Ex. 8228), Fax: +81-92-943-6158, E-mail: ksueishi@fukuokae2.hosp.go.jp

Funding body agreements and policies. Elsevier has established agreements and developed policies to allow authors who publish in Elsevier journals to comply with potential manuscript archiving requirements as specified as conditions of their grant awards. To learn more about existing agreements and policies please visit <http://www.elsevier.com/fundingbodies>.

Preparation of Manuscripts

The papers must be double-spaced throughout, including references, tables and legends. Pages should be numbered consecutively, the title page counting as p. 1. The page number and last name of the first author must appear in the upper right hand corner of each page.

Manuscript Layout

1. **Title page:** The title page must include the Department of Origin, full Title (a maximum of two lines), First and Last Name of each author, a short Running Title, Key Words (a maximum of 5), and Address for Correspondence.
2. **Summary:** The Summary should not be written on the title page, but on p. 2, and is not to exceed a maximum of 200 words. It presents the purpose of the investigation, the most important methods, the main findings, and the principal conclusion.

3. **Key words:** For each manuscript a maximum of five Key words are required, referring to the special contents of the publication, and not to its methods. Key words are used for compilation of a subject index at the end of each volume and have to be selected accordingly. The Editors retain the right to change the Key words.

4. Text

Original Articles: Articles intended as “Original Articles” must be subdivided into the following four categories, in the following order: Introduction, Material and Methods, Results and Discussion. Papers should not exceed 10 printed pages. One printed page equals about 3 typewritten pages with 33 lines per page and 65 strokes per line. Any enclosed figures and tables must be referred to in the manuscript. Original papers also include the categories “Animal and In Vitro Models in Human Diseases” and “Histotechniques.”

Teaching Cases: “Teaching Cases” are prepared as “Original Articles”.

Diagnostic Seminars: These papers have a primarily informative character and can be longer than “Original Articles.” They are to cover a particular field of histologic or cytologic diagnostics, illustrating the findings with an extensive number of figures and references to the relevant literature.

Rapid Communications: “Rapid Communications” are reserved for reporting new observations of critical importance. They should not exceed 2 printed pages plus 4 illustrations and 1 table.

Hypotheses: These papers should be concise and not exceed 2 printed pages.

Reviews: Reviews should refer only to the most current and important literature.

5. **References:** The List of References, including all references mentioned in the text and/or tables, should appear in *alphabetical order, numbered consecutively with Arabic numbers. Citation in the text is by these numbers, enclosed in brackets and preceding any punctuation mark.* References in the List should follow the accepted scheme:

- *Articles from Journals:* P.B. Clement, Intravenous leiomyomatosis of the uterus. *Pathol Annu* 23 (1988) 153–183.
- *Articles within Books:* D.H. Dail, Uncommon tumors, In: D.H. Dail, S.P. Hammar (Eds.), *Pulmonary Pathology*, Second ed., Springer, New York, (1994), pp. 1279–1461.
- *Abstracts:* G. Minkowitz, P. Peterson, T.A. Godwin, A histochemical and immunohistochemical study of adenocarcinomas involving urinary bladder, *Modern Pathol.* 3 (Abstract) 68A.
- *Books:* J. Ludvig, *Current Methods of Autopsy Practice*, WB Saunders Company, Philadelphia, 1972, p. 334.

American Joint Committee on Cancer, *Manual for Staging of Cancer*, fourth ed. J.B. Lippincott Co, Philadelphia, 1993.

6. **Tables:** Tables should be typed double-spaced, each on a separate page. Each table should include a brief specific title and be labelled accordingly.

7. **Figures:** Drawings and halftones (photographs, photomicrographs, electron microphotographs, or roentgenograms) must be planned to fit the size of the printed page column of 8.5 cm. Electron microscopic figures or combined figures should not exceed 17.5 cm width and 23.3 cm height. For electronic submission figures should be supplied in EPS or TIFF format [final resolution 300 dpi for halftones, 1270 dpi for black/white line drawings]. Legends should include stains and magnification when applicable, explain any symbols used, and should be printed together on one page. If, together with your accepted article, you submit usable colour figures then Elsevier will ensure, at no additional charge, that these figures will appear in colour on the web (e.g., ScienceDirect and other sites) regardless of whether or not these illustrations are reproduced on colour in the printed version. Colour figures can be printed only if the costs are covered by the author (€250 for the first colour figure €200 for every subsequent colour figure). For more detailed instructions please visit our artwork instruction pages at <http://www.elsevier.com/artworkinstructions>.

Offprints

The corresponding author, at no cost, will be provided with a PDF file of the article via e-mail. The PDF file is a watermarked version of the published article and includes a cover sheet with the journal cover image and a disclaimer outlining the terms and conditions of use. Additional paper offprints can be ordered by the authors. An order form with prices will be sent to the corresponding author.

Online First

Until publication of the print edition, the corrected proof will be available at www.sciencedirect.com
